
Mathew Vila Verde Sousa

Remote C# .NET Developer / Junior QA Tester

 Alameda, CA, USA |  (510) 389-0532 |  mathewggwp@gmail.com |  [Portfolio](#)

Objective

Motivated and curious 18-year-old seeking a fully **remote job** in software development or QA testing. I'm ready to work online, learn fast, and contribute to any team using my C#, .NET, and web development skills. Open to freelance, full-time, or part-time positions.

Summary

Energetic and hands-on **C# .NET Developer** with solid skills in **JavaScript, HTML, CSS**, and **QA testing fundamentals**. Skilled in building small web and console applications, problem-solving, and writing clean code. Passionate about technology, eager to grow, and confident working in remote environments.

Technical Skills

Languages & Frameworks

- **C# / .NET Core / ASP.NET** – Web apps and console tools
- **JavaScript (ES6+)** – Interactive UI and frontend logic
- **HTML & CSS** – Responsive, modern designs
- **Python** – Scripting and AI basics
- **SQL** – Querying and basic DB design

Tools & Practices

- Git & GitHub

- Visual Studio / VS Code
 - RESTful APIs
 - QA Testing: bug reporting, test cases (learning automation)
 - Debugging & problem-solving
-

Experience

FHS Technology World Company – *Junior Developer & Trader*
Remote, Part-time

- Built internal tools in **C#** for automated trading strategies
 - Helped develop frontend components using **HTML/CSS/JS**
 - Learned version control and remote teamwork
-
